

Beginning, Intermediate, and Advanced Piano/Electric Keyboard For middle school and high school students

Course Description

Our course is designed for students who wish to develop basic piano playing skills, or expand on their existing skills. During our individual one-on-one classes, students learn proper playing techniques and gain a basic understanding of music theory in an environment that fosters music appreciation and helps students discover and express their own musical identity.

Classes are tailored to each student's ability, level of knowledge, and musical interest, whether they are beginners, intermediate, or advanced. Our course is twelve weeks of instruction that includes individualized lesson plans, customized practice guides, one-on-one weekly Skype meetings, as well as mid-week coaching as needed.

Required Equipment

- ♪ Computer with Skype capability (microphone and webcam)
- ♪ Electric keyboard, MIDI-keyboard controller, or acoustic piano

Schools that enroll a minimum of ten students for our individual one-on-one classes receive a quality MIDI piano/keyboard for their computer lab at no extra cost (\$100+ value).

**For information about enrollment, tuition and our free one-week trial at no obligation,
